

IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed including the following:

READ ALL INSTRUCTIONS BEFORE USE

- Always operate the stick mixer from power source of the same voltage. Frequency and rating as indicated on the product identification plate.
- Do not use with an extension cord.
- Close supervision is necessary when stick mixer is used by or near children, or incapacitated persons. Do not allow children to use it as a toy.
- Do not operate stick mixer with a damaged cord or plug, after the appliance malfunction or if it is dropped or damaged in any manner. Return appliance to the nearest Authorized Service Center for examination, repair or electrical cause fire, electrical shock or injury.
- Do not twist, kink or wrap the power cord around the appliance as this may cause the insulation to weaken and split particularly where it enters the unit.
- To protect against risk of electrical shock, do not put stick mixer motor in water or other liquid. This may cause personal injury and/or damage to the product.
- After each operation, allow the stick mixer to cool for 3 minutes before using it again.
- Do not process food containing hard objects that cannot be safely broken up by the blade.
- To protect against fire, do not operate the unit in the presence of explosive and/or flammable fumes.

- This stick mixer should not be used in the immediate vicinity of water, or immersion or splashing could occur.
- Avoid contact with moving parts. Keep hands, hair, clothing, as well as spatulas and other utensils away from blade during operation to reduce the risk of injury to persons and/or damage to the stick mixer. A spatula or scraper may be used when the appliance is not in operation.
- When mixing liquids, especially hot liquids, use a tall container or make small quantities at a time to reduce spillage.
